Developments from Matthew Hudson

The Future

It would be wrong to not expect a future with Emergence, by its very nature it will develop and encompass other areas and expand upon its own delivery and application, in ways we are unable to conceive of at the present time.

> "What's emergence without a future? An oxymoron!" Dr. Ian Johnson

Here are some of Matthew's own developments, including things David mentioned and pieces that he has picked up along the way.

Developments

- Warp-Drives
- Using NLP or Emergence
- More Meta-Drivers
- More Over-Drivers
- Finer Distinctions of the Question Structure
- The Four Flows
